Portfolio: [fill in]

TECHNICAL SKILLS

Languages
Python, JavaScript, HTML, CSS

Frontend
React, Vite, HTML, CSS, JavaScript

Backend & Auth
Firebase/Supabase

APIs
TMDB API

AI/ML
Python

Tools & Platforms
GitHub, Vercel, Linux/Unix shell

Add if true
[Node.js, REST APIs, Git, a database]

ACHIEVEMENTS

Blackout CTF (Nexploit), 36th place, team "Hello World", Nov 2026
Best of Health Well-Being at HackBites 3.0 MedZone – RFID and IoT Smart Patient Monitoring and First-Aid Guidance System

KEERTHANA V

WEB DEVELOPMENT INTERN CANDIDATE

SUMMARY

Computer Science and Engineering student building React and Vite web applications with live API data and user authentication. Seeking a web development internship to build responsive, data-driven web applications.

EDUCATION

Bachelor of Engineering, Computer Science and Engineering /
Global Academy of Technology, Bengaluru (VTU), third year

PROJECTS

Netflix-Inspired Streaming Clone /
React, Vite, Firebase/Supabase, TMDB API, Vercel

- Building a responsive movie-browsing web app with React and Vite.
- Integrating live movie data from the TMDB API.
- Implementing user authentication with Firebase/Supabase.

DeepGuard: Multimodal Deepfake Detection /
Python, AI/ML, third-year mini project

- Designed an AI system to detect synthetic media across multiple modalities.
- Authored the project synopsis and a two-column IEEE-style research paper.

Adaptive Learning App for Bilingual Cognitive Gaming in Elderly Care [16-october-2026]
[Mobile Framework, AI (DDA), REST API, JSON, Cloud Storage.]

- [Built a bilingual AI-powered cognitive gaming app using adaptive difficulty algorithms, mobile frameworks, REST APIs, and cloud storage, achieving 78.4

PUBLICATIONS

An AI-Driven Adaptive Learning Framework for Bilingual Cognitive Gaming in Elderly Care
[International Journal of Innovative Research in Technology (IJIRT) — Volume 13, Issue 5, October 2026.]

EXPERIENCE

AI Virtual Intern, DecodeLabs Sep 2026 – Oct 2026
Virtual internship

- Completed real-world projects and collaborative tasks in artificial intelligence. [add what you built and tools used]

Technology Job Simulation, Deloitte (Forage) Nov 2026
Virtual job simulation

- Completed practical coding and development tasks. [add tools used]

CERTIFICATIONS

- AWS Certified AI Practitioner, KodeKloud (Feb 2025)
- GCP Cloud Digital Leader, KodeKloud (Feb 2025)
- Agile Scrum Certification, Wingspan (May 2026)
- Unix Linux OS: Unix Networking and Shell Programming, Wingspan (Nov 2025)
- Privacy and Security in Online Social Media, NPTEL (Jul–Oct 2026)
